

To whom it may concern,

Tom with Huneke Engineering recently helped me on a home remodel. He walked me through every step of the process. We removed 4 load bearing walls and replaced them with beams. We also jacked up multiple sagging floors. The project was mired with nuances and hurdles as it is an 1890's home. Tom was patient, professional and informative. I have very high standards and am often difficult to please. Tom exceeded my expectations and I am satisfied with the result of the project.

Regards,

Matt Beaver
