RESIDENTIAL DESIGN

Many customers come to us with an idea of the perfect home in their minds, but do not know how to express those ideas on paper. We, at Huneke Engineering, have a draftsman on staff to help you with all of your design ideas.

STRUCTURAL ENGINEERING

Our licensed Civil Engineer has many years of experience. Engineering is a service-oriented field, so we listen to your wishes, concerns, and goals before we start the project. We also have a Junior Engineer on staff that specializes in the science and art of wind engineering.
